## PROFESSIONAL EXPERIENCE

### B QARLSON SOFTWARE TECHNOLOGY

Aug - Dec 2023

#### Full Stack Intern

Throughout internship, immersed myself in a range of responsibilities, from understanding user experience intricacies to optimizing database interactions. This experience not only enhanced my coding proficiency but also fostered a comprehensive understanding of application architecture.

### Coders Cave

Oct 2023

#### Java Intern

I engaged in a dynamic learning experience, refining and applying my Java development skills. This project-based internship not only deepened my understanding of Java but also provided hands-on opportunities to build projects within specified timeframes.

## TECHNICAL SKILLS

### Languages

Java  
Html , Css  
JavaScript , TypeScript

### Frameworks

React , Redux , Nodejs  
Express , MongoDB  
Bootstrap , Tailwind Css

### Developer Tools

Git , GitHub  
VS Code , IntelliJ  
Netlify , Render , Figma , Postman

## PROJECTS

### Big Boon

#### React , Nodejs , Material UI , Redux , React-router , Styled Component , Express , MongoDB , Stripe

- Architected scalable eCommerce solution, facilitating growth , managing increased user traffic effectively and efficient state management using Redux Toolkit.
- Responsive UI, optimizing cross-device shopping experiences for enhanced user engagement.
- Implemented robust security measures and seamless payment gateways to ensure trust and protect user data during transactions.

### Job-Seeker

#### React , Tailwind CSS , Jest- dom , React icon , Bootstrap

- Designed and developed a feature-rich job portal. Enhanced proficiency in frontend technologies, and UI design. Hands-on experience crafting a user-centric job-hunting app.
- Emphasizing user-friendly design and efficient applications, Implemented clean UI and styled components.

### RJDTC || Website Developed for my Client

#### React , Nodejs , MongoDB , Tailwind CSS , React - router

- RJDTC is an Orthopaedic Super Speciality hospital with rich feature.
- Implemented Appointment section , visually appealing , responsive UI and decrease 50% loading time.

### Lift-Simulation

#### JavaScript , Vanilla CSS , Html5

- Developed a dynamic web application for simulating elevator mechanics, showcasing my expertise.
- The project assigned by @realdevsquad, involved precise user inputs and real-time simulation.

## EDUCATION

### NPSEI , Pithoragarh

Aug 2022 - Present

Bachelor of Technology in Computer Science & Engineering

### Government Polytechnic

June 2022

Narendra Nagar , T.G.

Diploma in Electrical Engineering

## EXTRACURRICULAR ACTIVITIES

### Technology and Innovation

- Organizer of tech-related events or workshops.
- Contributor to open-source project at Layer5.

### Community Volunteer

- Volunteer for local charities , community events
- Program leader of a organization.
